

This Spey Line compatibility chart is provided as a reference to help match ECHO Spey lines to your specific rod of choice. Please keep in mind these recommendations serve as a starting point and are based on the best match to bring an "All-around" performance out of the rod. If you like a little quicker, stiffer feel than drop a line weight, consequently for a softer, slower feel move up a line weight. With all things "Spey" personal choice and casting style play a huge part in one's "Perfect Line." For 2hand overhead casting we recommend reducing the line weight by approx 60gr/4g. If you are unsure please ring us on +49 4182 291312 or drop us a mail at: info@balticflyfisher.com

2015 Rod/Line Weight Recommendations

Series	Model	Length	Line	Grain/Gram Window	ECHO Skagit Compact	ECHO Skagit Compact Int.	ECHO Skagit Switch	ECHO Rage Compact Float	ECHO Scandi Compact
