

	A	B	C	D	E	F	G	H	I	J	K	L	M
1	Airflo Two-Handed Line to Rod Chart												
2	Please												
3	keep in mind these recommendations serve as a starting point and are based on the best match to bring an "All-around"												
4	performance out of the rod. If you like a little quicker, stiffer feel than drop a line weight, consequently for a softer, slower feel												
5	move up a line weight. With all things "Spey" personal choice and casting style play a huge part in one's "Perfect Line." If you												
6	have any questions or do not see your rod listed please give us a call on +49 4182 291312
